

# Mahmoud Mohamed Mahmoud

Software Engineer | Angular Frontend Developer

📍 Qena, Egypt    ✉️ mahmoud.mmi.dev@gmail.com    ☎️ +201155347463    🌐 GitHub    🔗 LinkedIn    📁 Portfolio

## SUMMARY

Software Engineer and Angular Frontend Developer focused on building responsive, maintainable web applications using Angular, TypeScript, RxJS, and REST APIs. Hands-on experience developing admin dashboards, RTL interfaces, authentication workflows, and reusable component-based systems. ITI MEARN Stack graduate and External Instructor delivering hands-on web development training through real-world projects.

## TECHNICAL SKILLS

**Frontend:** Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, SASS/SCSS, Responsive Design, RTL UI

**Angular Ecosystem:** Components, Services, Routing, Reactive Forms, RxJS, Guards, Interceptors, Lazy Loading, REST API Integration

**UI & Libraries:** Bootstrap 5, PrimeNG, Chart.js, ngx-translate

**Backend:** Node.js, Express.js, REST APIs

**Databases:** MongoDB, MS SQL Server

**Core Concepts:** OOP, Data Structures, Algorithms, Design Patterns, SDLC

**Testing & Tools:** Jasmine, Git, GitHub, Postman, VS Code, Vercel, Figma

## PROFESSIONAL EXPERIENCE

**External Instructor,** Information Technology Institute (ITI) 07/2025 – Present

- Deliver hands-on training in modern web development, including the MEARN Stack track, covering Angular, React, Node.js, Express.js, MongoDB, HTML, CSS, and JavaScript.
- Mentor trainees through real-world projects, debugging, code reviews, and practical implementation of web application features.

**Freelance Angular Developer,** Freelance Client 08/2026

- Developed the frontend of an educational training and assessment platform, including admin dashboard screens, student portal workflows, and responsive UI components.
- Built reusable Angular components, Reactive Forms, routing, and REST API integrations with a .NET backend.

**Freelance Webflow Developer,** Mostaq 12/2025 – 01/2026

- Redesigned and enhanced a Webflow website, improving UI/UX, mobile responsiveness, and on-page SEO across the homepage and services pages.

**Freelancing Coach – Software Development,** EYouth 10/2024 – 04/2025

- Guided participants in freelancing fundamentals, portfolio building, client communication, and project presentation as part of the Digital Egypt Pioneers Initiative (DEPI).
- Helped participants prepare for freelance opportunities through practical mentoring and career guidance.

**Freelance Angular Developer,** Mostaq 11/2024 – 01/2025

- Developed the frontend of a booking management application for managing bookings, services, employees, and availability.
- Built responsive Angular screens using reusable components, Reactive Forms, routing, guards, interceptors, and REST API integration.

**Freelance UI/UX & SRS Consultant,** Mostaq 09/2024

- Created an SRS document and UX wireframes to define user flows, application screens, and core system requirements.
