SUMMARY

Angular Frontend Developer and Software Engineer focused on building responsive, maintainable web applications using Angular, TypeScript, RxJS, and REST APIs. Experienced in admin dashboards, RTL interfaces, authentication workflows, Reactive Forms, routing, guards, lazy loading, and reusable component-based architecture. ITI MEARN Stack graduate and External Instructor delivering hands-on web development training through real-world projects.

TECHNICAL SKILLS

Frontend: Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, SASS/SCSS, Responsive Design, RTL UI

Angular: Components, Services, Routing, Reactive Forms, RxJS, Guards, Interceptors, Lazy Loading, API Integration

UI & Libraries: Bootstrap 5, PrimeNG, Chart.js, ngx-translate, Lucide Icons

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MS SQL Server

Core Concepts: OOP, Data Structures, Algorithms, Design Patterns, SDLC

Testing & Tools: Jasmine, Git, GitHub, Postman, Figma, Vercel

PROFESSIONAL EXPERIENCE

External Instructor, Information Technology Institute (ITI) 07/2025 – Present

- Deliver hands-on training in modern web development, including the MEARN Stack track, covering Angular, React, Node.js, Express.js, MongoDB, HTML, CSS, and JavaScript.
- Mentor trainees through real-world projects, debugging, code reviews, and practical implementation of web application features.

Freelance Angular Developer, Freelance Client 08/2026

- Developed the frontend of a full educational training and exams platform using Angular, including admin dashboard screens, student portal workflows, and responsive UI components.
- Implemented reusable components, Reactive Forms, routing, and REST API integration with a .NET backend.
- Tech Stack: Angular, TypeScript, RxJS, Bootstrap, REST API Integration

Freelance Webflow Developer, Mostaq 12/2025 – 01/2026

- Redesigned and improved a Webflow website, enhancing UI/UX, mobile responsiveness, and SEO for the homepage and services page.
- Tech Stack: Webflow, HTML, CSS, JavaScript, SEO, UI/UX Design

Software Development Freelancing Coach, EYouth 10/2024 – 04/2025

- Guided participants in freelancing fundamentals, portfolio building, client communication, and project presentation as part of the Digital Egypt Pioneers Initiative (DEPI).
- Helped participants prepare for the global freelance market through practical mentoring and career guidance.

Freelance Angular Developer, Mostaq 11/2024 – 01/2025

- Developed the frontend of a booking management web application for managing bookings, services, employees, and availability.
- Built responsive Angular screens using reusable components, Reactive Forms, routing, guards, interceptors, and REST API integration.
- Tech Stack: Angular, TypeScript, RxJS, Bootstrap, REST API Integration

Freelance UI/UX & SRS Project, Mostaq 09/2024

- Created an SRS document and UX wireframes to clarify user flows, screens, and core system requirements.

EDUCATION

Master's Degree in Computer Science , Assiut University	2025 – Present Assiut, Egypt
Bachelor of Computers and Information , South Valley University Computer Science Department GPA: 3.06/4.0 (B+)	2020 – 2024 Qena, Egypt

SELECTED PROJECTS

Qurb Arabic Islamic Web App , Angular Web Application	09/2026
- Built and deployed a modern Arabic RTL Islamic web application for Quran reading, prayer times, azkar, hadith collections, and favorites. - Implemented standalone components, lazy-loaded routes, Angular Signals, reusable UI components, REST API integration, local storage, cached fallback data, and SEO-ready pages. - Tech Stack: Angular 22, TypeScript, SCSS, Angular Signals, RxJS, REST APIs Live Demo GitHub	
RetailOps Admin Dashboard , Angular Web Application	08/2026
- Developed a production-style e-commerce operations dashboard for products, orders, customers, inventory, users, analytics, and settings. - Built authentication, protected routes, role-based access control (RBAC), PrimeNG tables, global search, notifications, RTL support, themes, and responsive admin layouts. - Tech Stack: Angular, TypeScript, RxJS, PrimeNG, Bootstrap 5, Chart.js, ngx-translate, REST APIs Live Demo GitHub	
Touché de Gateau E-Commerce Demo , Angular Frontend Demo	08/2026
- Developed an Arabic RTL e-commerce frontend demo for a Saudi cake shop, including homepage, product catalog, product details, cart, and checkout flow. - Built responsive UI screens, cart interactions, quantity controls, and order form pages using real product catalog content. - Tech Stack: Angular, TypeScript, SCSS, Responsive Design, RTL UI Live Demo GitHub	
Nova AI Learning Assistant , AI Learning Web Application	07/2026
- Developed an AI-powered learning assistant that allows users to ask questions and receive structured responses using Gemini API. - Built a responsive chat-based interface and integrated the frontend with REST APIs. - Tech Stack: Angular, TypeScript, Node.js, Express.js, Gemini API, REST APIs GitHub	

PROFESSIONAL TRAINING & CERTIFICATIONS

Intensive Training Program – MEARN Stack Track Information Technology Institute (ITI) Covered: Full Stack Web Development, MongoDB, Express.js, Angular, React, Node.js, JavaScript, TypeScript, REST APIs, and real-world web projects.	12/2024 – 05/2025 Qena, Egypt
Front-End Development Summer Training , Information Technology Institute (ITI) Covered: HTML5, CSS3, Responsive Web Design, Bootstrap 5, JavaScript, TypeScript, and Angular fundamentals.	08/2023 – 09/2023
HCIA-AI Certificate , Huawei Covered: AI fundamentals, machine learning, deep learning, neural networks, and common ML algorithms.	11/2022
Artificial Intelligence Summer Training , National Telecommunication Institute (NTI) Covered: AI and machine learning fundamentals, Python, deep learning, communication skills, and problem solving.	08/2021 – 09/2021
