

Mahmoud Mohamed Mahmoud

Software Engineer | Angular & TypeScript

📍 Qena, Egypt ✉️ mahmoud.mmi.dev@gmail.com 📞 +201155347463 🌐 GitHub 🔗 LinkedIn 📁 Portfolio

SUMMARY

Software Engineer focused on building responsive web applications using Angular, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, and REST API integration. Graduate of ITI's 4-month MEARN Stack track, with practical experience in MongoDB, Express.js, React, Angular, and Node.js. Currently working as an External Instructor at ITI, mentoring students and delivering hands-on training through real-world web projects.

TECHNICAL SKILLS

Frontend: Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap 5, SASS, Responsive Design

Angular: Components, Services, Routing, Reactive Forms, RxJS, Guards, Interceptors, Lazy Loading, Angular Material, REST API Integration, Dependency Injection

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MS SQL Server

Core Concepts: OOP, Data Structures, Algorithms, Design Patterns, SDLC

Unit Testing: Jasmine

Tools: Git, GitHub, Postman, Figma

PROFESSIONAL EXPERIENCE

External Instructor, Information Technology Institute (ITI) 07/2025 – Present

- Deliver hands-on training in modern web development across multiple ITI tracks, covering Angular, React, Node.js, Express.js, MongoDB, HTML, CSS, and JavaScript.
- Mentor junior developers through real-world projects, debugging, code reviews, and practical implementation of web application features.

Freelance Webflow Developer, Mostaqi 12/2025 – 01/2026

- Redesigned and improved a Webflow website, enhancing UI/UX, mobile responsiveness, and SEO for the homepage and services page.
- Tech Stack: Webflow, HTML, CSS, JavaScript, SEO, UI/UX Design

Coach for Freelancing in Software Development, EYouth 10/2024 – 04/2025

- Guided participants in freelancing fundamentals, portfolio building, client communication, and project presentation as part of the Digital Egypt Pioneers Initiative (DEPI).
- Helped participants prepare for the global freelance market through practical mentoring and career guidance.

Freelance Angular Developer, Mostaqi 11/2024 – 01/2025

- Developed the frontend of a booking management web application for managing bookings, services, employees, and availability.
- Built responsive Angular screens using reusable components, Reactive Forms, routing, guards, interceptors, and REST API integration.
- Collaborated with the backend developer to integrate frontend workflows with API endpoints.
- Tech Stack: Angular, TypeScript, RxJS, Bootstrap, REST API Integration

Freelance UI/UX & SRS Project, Mostaqi 09/2024

- Converted a mobile app idea into a Software Requirements Specification (SRS) document.
- Designed UX wireframes to clarify user flows, screens, and core system requirements.

EDUCATION

Master's Degree in Computer Science , Assiut University	2025 – Present Assiut, Egypt
Bachelor of Computers and Information , South Valley University Computer Science Department GPA: 3.06/4.0 (B+)	2020 – 2024 Qena, Egypt

SELECTED PROJECTS

University Campus Housing Management System , Graduation Project	2023 – 2024
- Built a university housing management system for room selection, availability tracking, violations, infrastructure oversight, reporting, and administrative settings. - Worked as a UI/UX Designer and Frontend Developer, designing interfaces and developing responsive Angular screens. - Implemented reusable components, routing, forms, and REST API integration for core system workflows. - Tech Stack: Angular, TypeScript, Bootstrap 5, HTML5, CSS3, Figma, REST API Integration Live Demo Video	
Medium Clone , Articles Website	10/2023
- Developed a simplified Medium-like articles platform where users can register, create, edit, and delete articles, follow writers, and view profiles. - Built responsive Angular pages and integrated frontend workflows with REST APIs. - Tech Stack: Angular, TypeScript, Bootstrap 5, HTML5, CSS3, REST API Integration Live Demo GitHub	
E-Commerce Website	09/2023
- Developed a responsive e-commerce interface for displaying products, filtering by categories, and viewing product details. - Used Angular components, routing, and reusable UI sections to organize product listing and details pages. - Tech Stack: Angular, TypeScript, Bootstrap 5, HTML5, CSS3 GitHub	
Online Learning Management System (LMS)	06/2023
- Developed a learning management system for managing courses, teaching staff, students, and course materials. - Created user interfaces for course viewing, material downloads, and admin management workflows. - Tech Stack: HTML, CSS, JavaScript, Bootstrap, SRS, Figma GitHub	

PROFESSIONAL TRAINING & CERTIFICATIONS

Full Stack Web Development – MEARN Stack Track Information Technology Institute (ITI) Covered: MongoDB, Express.js, Angular, React, Node.js, JavaScript, TypeScript, REST APIs, and real-world web projects.	12/2024 – 05/2025 Qena, Egypt
Front-End Development Summer Training , Information Technology Institute (ITI) Covered: HTML5, CSS3, Responsive Web Design, Bootstrap 5, JavaScript (ES6+), TypeScript, and Angular fundamentals.	08/2023 – 09/2023
HCIA-AI Certificate , Huawei Covered: AI fundamentals, machine learning, deep learning, neural networks, and common ML algorithms.	11/2022
Artificial Intelligence Summer Training , National Telecommunication Institute (NTI) Covered: AI & machine learning fundamentals, Python, deep learning, communication skills, and problem solving.	08/2021 – 09/2021
