Mahmoud Mohamed Mahmoud

Software Engineer | Angular Frontend Developer

Qena, Egypt mahmoud.mmi.dev@gmail.com +201155347463 GitHub LinkedIn Portfolio

SUMMARY

Software Engineer and Angular Frontend Developer with hands-on experience building responsive, maintainable web applications using Angular, TypeScript, RxJS, and REST APIs. Experienced in admin dashboards, authentication workflows, RTL interfaces, reusable components, and API-driven applications. ITI MEARN Stack graduate with freelance development experience and current work as an External Instructor at ITI.

TECHNICAL SKILLS

Frontend: Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Responsive Web Design, RTL UI

Angular Ecosystem: Standalone Components, Signals, RxJS, Routing, Reactive Forms, Guards, Interceptors, Lazy Loading, PWA, Service Workers, REST API Integration

UI & Libraries: Bootstrap 5, PrimeNG, Chart.js, ngx-translate

Backend: Node.js, Express.js, REST API Development

Databases: MongoDB, Microsoft SQL Server

Core Concepts: OOP, Data Structures & Algorithms, Design Patterns, SDLC

Testing & Tools: Jasmine, Git, GitHub, Postman, Vercel, Figma

PROFESSIONAL EXPERIENCE

External Instructor (Part-Time), Information Technology Institute (ITI) 07/2025 – Present

- Deliver hands-on web development training across the MEARN Stack, including Angular, React, Node.js, Express.js, MongoDB, HTML, CSS, and JavaScript.
- Mentor trainees through real-world projects, debugging, code reviews, and practical implementation of web application features.

Freelance Angular Developer, Confidential Client 08/2026

- Developed the Angular frontend for an educational training and assessment platform, including admin dashboard screens, student portal workflows, and responsive UI components.
- Built reusable Angular components, Reactive Forms, routing, and integrated REST APIs with a .NET backend.

Freelance Webflow Developer, Mostaql 12/2025 – 01/2026

- Redesigned and enhanced a Webflow website, improving UI/UX, mobile responsiveness, and on-page SEO across key pages.

Freelancing Coach – Software Development, EYouth 10/2024 – 04/2025

- Mentored participants in freelancing, portfolio building, client communication, project presentation, and preparation for freelance opportunities as part of the Digital Egypt Pioneers Initiative (DEPI).

Freelance Angular Developer, Mostaql 11/2024 – 01/2025

- Developed the frontend of a booking management application covering bookings, services, employees, and availability.
- Built responsive Angular interfaces using reusable components, Reactive Forms, routing, guards, interceptors, and REST API integration.

Freelance UI/UX & SRS Consultant, Mostaql 09/2024

- Created an SRS document and UX wireframes defining user flows, application screens, and core system requirements.

EDUCATION

Master's in Computer Science, Assiut University — 2025 – Present | Assiut, Egypt

Bachelor's Degree in Computers and Information, South Valley University — 2020 – 2024 | Qena, Egypt
Computer Science Department | GPA: **3.06/4.00 (B+)**

SELECTED PROJECTS

Qurb | Arabic Islamic PWA — 09/2026

- Built and deployed an installable Arabic-first Islamic PWA featuring Quran reading, prayer times, azkar, hadith, daily Wird tracking, and favorites.
- Implemented offline Quran reading using locally bundled Madinah Mushaf data (Hafs narration), Angular Service Worker, lazy-loaded routes, Signals, and responsive RTL interfaces.
- **Tech Stack:** Angular 22, TypeScript, Signals, RxJS, SCSS, PWA, Service Worker
- **Live Demo** | **GitHub**

RetailOps Admin Dashboard — 08/2026

- Developed an e-commerce operations dashboard covering products, orders, customers, inventory, users, analytics, and settings.
- Implemented authentication, permission-based RBAC, protected routes, PrimeNG data tables, analytics, localization, RTL support, and responsive admin layouts.
- **Tech Stack:** Angular 22, TypeScript, RxJS, PrimeNG, Chart.js, REST APIs, ngx-translate
- **Live Demo** | **GitHub**

Touché de Gateau | Arabic RTL E-Commerce Frontend — 08/2026

- Built a responsive Arabic RTL e-commerce frontend featuring product discovery, category filtering, search, product details, cart management, and checkout workflows.
- Structured the application with standalone components and feature-based architecture, using Angular Signals for centralized cart state, localStorage persistence, and Reactive Forms for checkout validation.
- **Tech Stack:** Angular 20, TypeScript, Signals, Reactive Forms, SCSS, Angular Router
- **Live Demo** | **GitHub**

Nova AI Learning Assistant — 07/2026

- Developed a full-stack AI learning assistant with real-time Gemini response streaming, multi-turn conversations, Markdown rendering, and persistent local chat history.
- Built a responsive Angular frontend integrated with a Node.js/Express.js backend featuring request validation, rate limiting, and API error handling.
- **Tech Stack:** Angular, TypeScript, Node.js, Express.js, Gemini API, Streaming, REST APIs
- **GitHub**

PROFESSIONAL TRAINING & CERTIFICATIONS

Intensive Training Program – MEARN Stack Track — 12/2024 – 05/2025 | Qena, Egypt
Information Technology Institute (ITI)
Full-stack web development covering MongoDB, Express.js, Angular, React, Node.js, JavaScript, TypeScript, REST APIs, and real-world projects.

Frontend Development Summer Training, Information Technology Institute (ITI) — 08/2023 – 09/2023
HTML5, CSS3, Responsive Web Design, Bootstrap 5, JavaScript, TypeScript, and Angular fundamentals.

HCIA-AI Certificate, Huawei — 11/2022
AI fundamentals, machine learning, deep learning, neural networks, and common ML algorithms.
